

Dear WWDC Scholarship Office,

I am Gustavo Lima, Senior Software Engineer at Eldorado Research Institute in Campinas/SP and instructor on an iOS Educational Program (BEPiD) in the same company . I'm writing on behalf of RAFAEL TOMAZ PRADO, an applicant for the WWDC 2017 Scholarship.

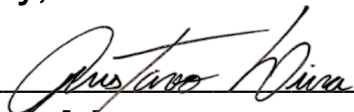

Rafael is a Control and Automation Engineer student at University of Campinas (Unicamp) and is a member of BEPiD Campinas.

As being a full-time student, Rafael does not have other means of paying for the travel expenses from Brazil to attend WWDC 2017. For all the great work he had developed so far at BEPiD Campinas, I strongly encourage him to participate in this event.

I am certain that this experience would be highly valuable for Rafael's professional and academic career and that he would enjoy the experience. Therefore, I recommend him for a scholarship admission. Please feel free to contact me at gustavo.lima@eldorado.org.br and let me know if I can provide any further information.

Thank you for considering my request.

Sincerely,

Gustavo Lima
Senior Software Engineer
